

## **Contract Warehousing**

### About US

STL Warehousing delivers a powerful set of services to help ensure your success.

Our warehousing experts provide a practical, fresh perspective that helps you become more competitive and give you the 'on-the spot' solutions you need to lead your industry.

## What do you want from your warehouse?

We didn't become one of Australia's leading boutique warehousing companies without good reason. Our staff deliver superior warehousing results. Using Lean methodologies along with our web based project management tools, state of the art warehouse management systems (WMS) and other productivity and analytical tools STL Warehousing deliver results.

- ✓ We're extremely good at **achieving results** and resolving warehousing problems using a lean approach.
- ✓ We're dedicated to **raising the bar** in what has traditionally been a low tech, blue collar environment with our professional online tools.
- ✓ Our commitment to **excellence and professionalism** is second-to-none.
- ✓ We specialise in the **application of technology** solutions to warehousing, so you get maximum process visibility and real time information.
- ✓ We're extremely resourceful and consistently accept **responsibility beyond the task** at hand.
- ✓ We deliver **exceptional economic returns**, time and again.
- ✓ We adapt to change **without interruption** within a warehousing environment.
- ✓ We've been described by clients and peers as:
  - "well-respected and high achieving consultants"
  - "trouble-shooters, negotiators, educators and listeners"
  - "proactive, quick to learn, energetic, humorous and honest"
- ✓ Our warehousing experts add substantive value in any recovery situation, and they possess outstanding across-the-board communication and presentation abilities.
- ✓ High reliance on technology to perform our services.
